

INDUSTRIAL VISIT TO SILVASSA On 23rd JANUARY, 2023

REPORT

The Vedanta College, Vithalwadi, organized its Industrial visit for the first year students of BMS, BAF, BBI, B.Sc.IT for the academic year 2022-23 at Sterlite Copper (A Unit of Vedanta Limited) Chinchpada plant, Silvassa on 23rd January, 2023. All Nine Staff members accompanied one hundred and forty one students to the Silvassa plant. On 23rd January, Students and teachers assembled in the college premises at around 6:00 am. Class wise arrangement was made and each bus was allotted to the respective college professors. Bus 'A' was led by Prof. Wendrich Soares, Prof. Neetu Gidwani and Naina madam of college. It accommodated 56 students of FYBAF. Bus 'B' was allotted to 41 students of class FYBMS, it was led by Yash Sir along with Prof. Kritika ma'am and Annie ma'am. Bus 'C' was allotted to 44 students of FYBS.c.IT and FYBBI, it was led by Iram ma'am, Sushmita ma'am and Kunal Sir. The journey started at sharp 7:30 a.m. from the college premises and it reached the plant at around 1:30 p.m. Mr. Kiran and Rajesh Sir met at Vasoni Naka from there the buses were further diverted to the destined Chinchpada, Rakoli plant and Piparia Plant.

Bus 'A' visited the Vedanta Copper of Sterlite Technologies Ltd, Chinchpada.

Bus 'B' visited to Sterlite Power Transmission Ltd, Piparia.

Bus 'C' visited to the Sterlite Technology Ltd of Optical fibers, Rakoli.

In each plant as soon as the students and staff reached they were welcomed and induction of each and every student has happened and after that lunch was provided to disciples and college staff in auditorium and given head gears and goggles for extra safety to enter the plant. After lunch students were divided in to batches and were taken to the processing unit, followed by presentation for another batch of students and during presentation they were informed about their CSR activities, Nandghar and Balco medical Centre and whole PowerPoint presentation was shown about detailed process of that Plant and explained the role played by Sterlite technology limited (STL) in the development of community. An overall production of copper wires was shown in the process of manufacturing till the packaging of that copper wires was explained to the students of another batch. It was the unique experience for students since they got a rare opportunity to witness the insides of the plant and its processing unit. The Head of the unit gave a wonderful presentation of the online and offline Quality Testing process in the laboratory. All

students were deeply engrossed in interacting with the team and were inquisitive about every aspect of production. The best part was all of them could watch 'live' production of copper wires being carried out in the plant. The coaches were patient enough to address each doubt raised by the student effectively. In the evening everyone was provided with appetizers box. Vote of thanks and heartfelt gratitude for cooperation and hospitality was given by one of the Professors as well as few students with a heavy heart as they were not wanting to end the process of Industrial visit. All buses left the site at around 6:30 p.m. in the evening and reached college campus at 11:40 p.m. Final attendance was taken by the professors and students left the college campus with the wonderful memories of the visit, the staff bid adieu to each other. Everyone was thrilled to have spent a wonderful time learning about the production process at the shop-floor level.
